

RETROFIT MIXER TOP

FITS ALL OLD-STYLE MIXERS

750 - 3750 l

- Easy installation
- Extend mixer lifetime
- Enhanced safety
- Dual motors
- Better spare part availability
- Reduced energy consumption

THE COMPLETE MIXER TOP CONSISTS OF:

- Steel framed mixer top
- Top cover with hatches
- Safety system for hatches with mechanical locks and key system
- Preparation for inlet
- Gearbox
- Electrical motors
- Mixing tools

By replacing the top of your old generation mixer you can extend the lifetime of the mixer while having the benefits of better spare part availability, higher reliability, better monitoring and enhanced safety.

The dual motor system allows for production to continue even if one motor fails.

Optional:

Retrofit high pressure washing system

– Better, safer and easier cleaning
